Bokashi Organko XL

Bokashi Organko XL is a 120-liter composter perfectly suited for restaurants, hotels, and other larger facilities that want to manage their organic waste responsibly. This large bokashi composter can be used in the same way as any other Bokashi Organko composter. Moreover, it also has a pipe in its base that serves for bokashi liquid removal. Nonetheless, Bokashi Organko XL comes in a green color, which clearly indicates its organic-waste-collecting purpose.
